5/27/69 The negatives and prints have arrived from the Archives.

But, Tom is out of town. When he returns I'd give them to him for marking a set of prints and then will send them.

Nothing else new.

If any of the papers you see have any meaningful stories on the Ray hearing, I'd be interested, aside from the AP stuff. I've seen no UPI story but have the NY Times and News.

If it is subject to the process, I've not figured out why Stoner withdrew the charge of coercion and effective denial of counsel.

There was a brief glimpse of Ray on NBC TV news tonight. He refused any comment, if you didn't see it, not even making a formal denial of having killed anyone, and didn't in any way I noticed change his facial expression. He has picked up 20 pounds and in some ways his face does look different.

Best regards,

H
