Inquest Ignored by Panthers

By William Chapman

- CHICAGO, Jan. 7-A special inquest in the slaying of two Black Panther leaders bogged down today as the Panther party members who survived a Dec. 4 police raid boycotted the hearing.

Their absence left the field to police witnesses, indicating that the first of three investigetions of the slaving may not roduce much new evidence.

The 'special coroner's jury is nvestigating the shooting by olice of Black Panther Party leaders Fred Hampton and Mark Clark in a West Side partment last month.

Police from the state's attorley's office contend they were hot at first in the pre-dawn aid. The Panthers claim the olice burst in firing, killing Tampton, the Illinois chairhan, while he was in bed. The seven other Panthurs

All seven have been charged with attempted murder and their lawyers believe that testimony now might jeopardize their trial later.

Their refusal to appear, however, brought an angry denunciation today from conduct the unusual inquiry.

"If they feel as badly about their comrades as they say they do, they should tell their story to the world," Gerber declared as the session opened.

Meanwhile, a new mystery developed last night when two Chicago newspapers reported that an unofficial autopsy had disclosed a heavy dose of Se-

conal, a dep indusing drug, in Hamasus s blood tream.

The suropsy was conducted involve after the shooting by a ormer chief pathologist for he coroner's office who was etained by Panther lawyers.
