
A wealth of American tradition and technology are linked in the historic Fredericksburg area: a community with foresight for progress and a capable enthusiasm for service. Lee Hill Industrial Park is an important part of this capability.

BookCrafters is proud to be located in this new industrial development. Strategically situated in eastern Virginia, the Fredericksburg area affords one of the best business climates on the east coast. Excellent transportation and shipping facilities are augmented by a central location and proximity to Interstate #95 and U.S. #1.

Tradition, foresight and growth potential coexist in Fredericksburg.
