Rather than do that, Judge Dyer reversed an earlier ruling and granted a defense request that the trial-already removed once, from Cambridge to Bel Air - be transferred once again to another

"In view of the announced concern of the state's attorney (Yates) . . . (and the) concern of defense counsel that the defendant could not get a fair trial in this court, the court feels that it should not hear the case," Dyer said in an order issued yesterday. Attempts to reach him for further comment failed.

In New York, chief defense counsel William M. Kunstler sald that he believes Cam-bridge is still "the only place in the United States where Rap can get a fair trial."

Yates, the Dorchester County state's attorney, won removal of the trial from Cambridge by arguing that to hold it there would run the risk of violence. The charges against Brown stem from fires and disorders that followed a speech he made in Cambridge's predominantly Negro

Second Ward in 1967.

Yates said yesterday that although he is "looking forward to trying the case in Howard County," he would have preferred to proceed as scheduled in Bel Air, but without Dyer.

### 'People . . . Are Fair'

"The people of Harford County are very fair and non-prejudiced," he said. "I'd hoped (Dyer) would have disqualified himself and let Judge Close sit on it."

In Ellicott City, the seat of Howard County, Judge Macgill could not be reached for comment. Court personnel could not say when the trial might be scheduled, but Yates said he didn't "see how it could be quicker than two weeks, at the fastest."

Kunstler originally opposed moving the trial to Bel Air because he said it would remove Brown from a black constituency he has in Cambridge.

Cambridge is about onethird Negro, Kunstler noted. but Harford County is about 90 per cent white and only a handful of Negroes-perhaps 5 per cent-live in Bel Air, the larities with the Bel Air explo county seat.

## Two Explosions

Citing an explosion that took the lives of two of Brown's associates when their car blew up in Bel Air on March 9, and a second blast a day later that ripped open the Dorchester County courthouse in Cambridge, Kunstler argued that the trial should be postponed indefinitely until "a it over with, the better." quieter time" when an impartil jury could be more easily chose.

Dyer denied this request, saying he saw no tension in though no bombs have been the air that would preclude a fair trial, but gave the de- of such threats since the fense until March 24 to pro- Cambridge and Bel Air exduce Brown and appear in court.

Brown is free on \$10,000 bond.

Because of the transfer of the trial, Brown will not have to appear until Judge Macgill are then likely to consume several days before jury selection begins and Brown's presence is actually required.

## Bombings' Similarity
