PH, and re 30351-Butler-witnessing

You do not make clear that you have asked or gotten the alleged basis of the witnessing. Have I missed something or is this to be your response? Jane Smith's name is new to me, as is her title and function. I have indicated knowledge and belief re Butler in the past, and now have more, i.e., his appearance with Nazi flags at the convention of the WVA in western Pa., which fits in with what I earlier said to you on his plugging of Linerling on his TV scatology. I think Butler saw his chance, used his connections and moved in, for selfish purposes is sufficient explanation. However, it does not explain what followed. Now that he is on the decline, he seems to be less hidden in his self-disclosure and this may be a time to ask him for it, that is, his testimony, which I can use to his-armor you find why his stuff is withheld. It might even pay to tell him that, depending on what you get in explanation.
