Oswald Depicted as CIA Agent, Sources Here Say

Trend in Investigation Is Reported

Sources close to District Attorney Jim Garrison's presidential assassination probe have reportedly tagged accused assassin Lee Harvey Oswald differently than the Warren Commission-making him not a Communist but a United States anti-Castro undercover

The trend in the investigation was said to stem from indications of deep involvement of the U.S. Central Intelligence Agency as related to certain principals being checked by the district attorney.

The Warien Commission named Oswald as the lone as-

sassin of Kennedy, who was shot in Dallas Nov. 22, 1963, and depicted Oswald as a conf u s e d, Communist-oriented young man driven by a deep need for public recognition.

COVER SUSPECTED Oswald's activities on behalf of the pro-Castro Fair Play for Cuba Committee here in the summer of 1963 are believed by the district attorney's office to have been no more than a cover for his real job of work-ing closely with militant anti-Communist Cuban groups, informants say.

A native New Orleanian, Oswald was shot to death by Jack Ruby two days after Kennedy's

slaying. The Warren Commission re-ported Oswald defected to the Soviet Union in 1959, less than a month after getting a hard-ship discharge from the U.S. Marine Corps in Japan. (For his defection to Russia, he was later dishonorably discharged.) Sources in the district at-

torney's office say Oswald may have been trained as an intelligence agent at Japan's Atsugi Air Force Base, a known CIA instruction camp, making his Russian trip open to speculation as to its reasons.

In Washington Friday the CIA

did not comment directly on any of these reports but cited testimony in which its top officials told the Warren Commission the agency had no connection with Oswald.

John A. McCone, then director of the intelligence agency, said of Oswald: "The agency never contacted him, interviewed him, talked with him, or received or solicited any reports or information from him or communicated with him in any manner."

McCone said that "Lee Harvey Oswald was never associated or connected directly or indirectly, in any way whatso-ever, with the agency."

LINK CITED

Sources with the district attorney cited a link between Oswald's New Orleans operations and those of two avowedly anti-Communist organizations, all of which used the same Camp st. building as headquarters.

One such group was the Cuban Revolutionary Democratic Front, headed by Sergio Arcacha Smith, now of Dallas, sought by Garrison in the probe.

The other was Guy Banister Associates, led by Guy Banister, a onetime Federal Bureau of Investigation official and assistant superintendent of New Orleans police.

Arcacha's office was closed in 1962, almost a year before Oswald lived in New Orleans for the last time. But Banister was still operating his detective

agency in the same building when Oswald printed the 544 Camp st. address on Fair Play for Cuba handbills he distributed in the New Orleans area.

TWO ENTRANCES

The building at the corner of Camp and Lafayette hag two entrances. The address used by Oswald for the Camp st. location was the same which Ar-cacha used. Banister's was 531 Lafayette.

In late 1962 the Crusade to Free Cuba, another anti-Castro organization to which Arcacha reportedly belonged, used the Camp address to receive mail contributions.

The district attorney's of-fice is said to have ques-tioned witnesses who reported seeing Oswald, Banister, Arcacha and the late David W. Ferrie together in the building. Ferrie, a former airline pilot whom Garrison called after his death "one of history's most important men," died at his apartment Feb. 22, five days after the district attorney probe became public.

Banister, who died of a heart attack in the summer of 1964. is being called a key liaison man for U.S. government-sponsored anti-Communist activities in Latin America. The States-Item said a source told it he saw from 50 to 100 boxes of war munitions in Banister's office early in 1961.

Ferrie recounted his role as a CIA commando to a young friend early in 1961, before the abortive Bay of Pigs invasion when more than 1,600 CIA-trained Cuban invaders were taken prisoners.

BOAST ALLEGED

The young man said Ferrit boasted of his role as an es pionage agent and said he was wounded in the abdomen by a knife of a Castro militiamer. during a hit-and-run attack on the Cuban coast early in 1961. An autopsy report on Ferrie reportedly shows a 12- to 14-inch scar across his abodmen.

Garrison charged that Ferrie, Oswald and 54-year-old Clay L. Shaw, retired managing director of the International Trade Mart. plotted the death of Kennedy during a conference at Ferrie's Louisiana ave. pkwy, apart-
