

(GARY)
J. GARRET UNDERHILL

— he was a suicide victim on May 8, 1964. He believed the assassination went much deeper than what appeared on the surface. He saw CIA connections in this.

The day after the assassination he said so to friends. He believed it had something to do with arms shipments of CIA (gun running) + with the Far East. He worked for Falcon Aeronautics which is a CIA front (I believe Salandra paid for). Falcon, I believe is in Washington, D.C.
