Dear Mr. Chapman,

The mailing tube with the charts arrived this morning and in good condition. I have not had time to study them carefully. It seems to me the best way to do this is with the benefit of your own study and what it discloses.

When you can, would you please set forth what this means to you and what you think fits with it?

I would very much like to see the picture you described to me, of a sheriff looking at pieces of the President's skull on Dealey Plaza, the south side of Elm Street. Can you tell me who has the picture, who took it, when it was taken, and who, if you know, was there when it was taken?

If the man who owns it can authenticate it, it is possible I can sell it for him. I would have to show it in order to do this. If he is interested, let him execute a paper that I will sign guaranteeing that I will make no public use of the picture and will show it only to those who might be interested in buying it and then after they guarantee ~~to~~ to make no public use of it without his permission. I think it is now possible for me to sell genuine assassination pictures if they show and say anything that is new. I will make this offer to anyone who has such shots.

Thank you very much for sending these interesting things to me. I am looking forward to your explanation and exposition.

Sincerely yours,

Harold Wässberg
