PROGRESS REPORT

In our last newsletter, we reported that we were launching a campaign to create committees in other states. As this is written, we have confirmed committees in New York, San Francisco, Michigan, and Vermont. We have members of the committee in about twenty states who are trying to form committees there.

In Los Angeles, there are now over 1,000 members. We still must push, so keep referring people to us. Our chairman, Steven Burton, is a qualified speaker and will speak to groups in order to recruit members. If you know of clubs that would be interested, please write to us.

Besides our continuing close contact with all of the critics, we have now established contact with Rep. Theodore Kupperman (R-NY) who has endorsed the committee. He will keep us informed on the Washington scene.

Thanks go to Roy Elwell, KLAC, for having Steven Burton as a guest for an hour and 45 minutes March 12. The result was 125 new members.

Three Assassins" David Lifton . . . 75¢

New Books

Two new books will be coming out in the near future. One will be by Marjorie (Maggie) Field and will comprise her collection of panoplies on the W.R. These are photostats of the testimony and the Report with a minimum of editorial comment that show the contradictions clearly and unequivocally. This spring, Random House.

The other will be Accessories After the Fact by Sylvia Meagher. Considering her capability of precise expression shown in her Minority of One articles, this book should be excellent. Next fall, Bobbs-Merrill.

MEET MARK LANE

We are trying to arrange an afternoon in which you can meet Mr. Lane somewhat informally. It should be either Saturday or Sunday, April 22-23. We will place a lecture notice in the L.A. Times Calendar Section to let you know.

Also on April 23, Mr. Lane will speak at Fullerton State College at 8:30 pm in the gym. Those of you in the south of L.A. can see him there. Bring your petitions and circulate them.

NEW ORLEANS

Mark Lane has been in New Orleans and has been briefed in detail by Jim Garrison. He has told the committee that Garrison knows and can prove who planned the assassination. But, Lane says that Garrison will not have the legal jurisdiction to arrest all who are involved, and for that reason, he feels that it is more important now than ever before that we continue to press for a new investigation. That we will do.

Following are the comments of some of the major critics of the Warren Report:

Mark Lane -

"I sat there stunned, absolutely stunned as the evidence was assembled before me by Mr. Garrison...the evidence is massively detailed and shows that...a very powerful domestic force was involved..."

Vincent Salandria -

"From what I can ascertain from a distance, D.A. Garrison bids well to become an important figure in history. He appears to have those ingredients so lacking in today's public officials, to wit, courage, skepticism, and honesty. Mr. Garrison seems to have a hierarchy of values that places truth at the pinnacle."

Harold Weisberg -

"My opinion of Garrison is that he is sincere, right, and pursuing what I had already outlined in Chapter 11 of the first book and 7 of the second."

Sylvia Meagher -

"I am very hopeful that when Mr. Garrison reveals his evidence it will conclusively resolve this great crisis of confidence and will conclusively demonstrate that the critics have been absolutely correct in their repudiation of the W.R. and their certainty that a political conspiracy plotted and executed the assassination."

Marjorie Field -

"Among the few statements made to the press by D.A. Garrison were two which indicated to me the comprehension and integrity with which he is approaching his investigation. The first was, "Let justice be done though the heavens fall." The second was, "I have no evidence to show that Lee Harvey Oswald shot anyone on Nov. 22, 1963."
