Dear Hr. Osborn,

Thanks for your letter of the 3rd and the enclosures, which I've read.

There is another suit not mentioned in this writing. Margaret Carroll, former roomate of Mary Jo Kopoechne, is suing Ehrlichman, Caulfield and Ulasewicz. The Halperin suit is better known.

I had only limited evidence of interest me in the DC area. I know of a U.S. Attorney telling another attorney, in private practise, when I was in his office. That lawyer was not then in his office, so this was not learned by a tap. And I presume I was overheard incidental to my conversations with IPS people. My specific knowledge is outside the Washington area.

There was a time when I had an informant inside the Finutemen. From what I got from him I know of the success of some of their spying on the left. I presume from this that they also served as federal informants. They claim to have penetrated the Weatherpeople. If you ever come accross anything along this line, it would be of interest to me in connection with a book and friend and I are doing jointly. One such informant, Larry Grantwohl, has already surfaced.

My friend has been or will be in touch with Schwartzn thanks.

If you know any of the former Army Intelligence people who operated in the inneapolis area and went public, I'd likexto be in touch with them over an incident back in 1968.

Thanks for your time and for putting me on your mailing list.

Sincerely,

Herold Weisberg
