

2/7/77

Dear Mike,

If I appear to be short I do not intend it. I've too much of what I've obtained from the government in areas of my immediate writing to read and I'm about to be away for two days. I'm going to Detroit to tape a Lou Gordon show on the King assassination.

I'll be back before you can respond. I'll be back Thursday evening.

If you want copies of what I'll refer to I'll have them made the first time I'm in Washington long enough. (The cost here is prohibitive.)

Today there were 238 pages from the CIA under these subjects:

Communist Control Techniques
Hypnosis in Intelligence
Hypnosis in Interrogation
Magic and how to Recognize It
Alcohol: A Practical Look at Social and Business Drinking
"Truth" Drugs in Interrogation
Introduction to Autogenic Training

So much has accumulated since I made that request that I have no idea when I'll have time to read this stuff now or even the details of that request of last year.

However, if you want it all or what they have given me on any topic, do let me know and I'll copy and send it.

Hope things are ~~gix~~ going well with you.

Sincerely,
