Mr. Edgar F. Tatro
51 Edgemont Road
Braintree, Massachusetts 02184

Dear Mr. Tatro:

Please allow me to thank you for your kind letter of August 3, and the several enclosures.

I am particullarly interested in the memorandum relating to the ammunition because I have been able to get almost nothing from Winchester. Would appreciate anything you can provide me on this. I am returning a Xerox[®] sheet on this and will look forward to any more you can provide me.

I obtained the 70 pages of NAA raw data in 1975 and this was recalculated. A Xerox® copy is enclosed of our presentation on this. Just as soon as a final paper appears I will send you a copy. Of course, as you may know the new committee has had the NAA redone but the results are not ready for disclosure.

Enclosed is a reprint of the article on Connally's wounds from the Maryland State Medical Journal. Am in the process of moving laboratory and office equipment and will be teaching for about three weeks. Will write you later and try to answer your questions and send you the copies of letters you ask.

Shall look forward to hearing from you.

Sincerely,

John Nichols
