Dear Congressman Conyers,

You may remember that three years ago, when I gave you copies of my book on the King assassination, Frame-Up, I told you that if you wanted to get out into the country for some fresh air and a change to please come here because I had ascertained what the next move of the racists would be when we succeed in destroying the fake solution of this crime in court.

I know how more than usually busy you are with the impeachment deliberations, but that may at some point weigh so heavily on you that you will want some fresh air and a respite. When that time comes, I hope you will accept my invitation, for more than this reason. If it is not when he has a show to direct, I imagine Dave Simons would drive you out. We are but an hour away, but it is a different world.

An evidentiary hearing for Ray is due about October. Unless the judge is corrupt, and there now is no reason to believe he is, he will order a trial and then there will be the need I mentioned to you. I have a fair notion of what is coming from what I learned from these racist characters in Memphis and some new and probative evidence.

In each case the FBI, which has much to worry about when their hoked-up solution comes apart, has what is subject to misuse. Including real, not faked, and very dramatic tape that I also have.

I have almost completed the rough draft of a different Watergate book. For it and for the archive I will be leaving and in which there is multiple collegiate interest, I would appreciate it if you could have a member of your staff please send me the volume released yesterday and anything else your committee might release.

It is now reported that Colson is going to be before your committee. If he found Christ it is in the White House. He is misleading in an area in which I have done much work. Without having or having read the so-called Baker report I can't be sure of its content but from the reporting and that of what Colson has said I do believe that they have combined on another cover-up. I also suspect that Agee is irrelevant and was seized upon as a diversion, to lead you away from the nitty-gritty. I have what I believe is substantial reason to hold this view.

Spooks are always fair game and God knows the CIA has done more than enough that can't be excused to set itself up. But in this case I believe that Baker and Colson are hiding the truth, part of which I have developed, and are going after it not with truth as a client but for Nixon.

Good luck with your work. The future hangs on it.

Sincerely,

Harold Weisberg
