

Telephone call from Mark Crouch

3/10/93

Harry phoned him from Dallas last night to boast that he knows what is going on at least implying because "we have our people in place" inside the Baltimore police.

From what Mark told me I do not assume his source is the police internal investigation but he gave Mark to understand that.

Harry told him "we know they failed because we have our own people in place," is the way I remember Mark quoting him. He also said, as he wrote Groden, that we walked into his trap.

He said of the police, "They sanctioned all we've been doing. It is a criminal investigation."

He said also that he has had Richard write a six-page report on this matter.

But there are other possible sources. For one thing a young woman, unknown to her, visited Mary Ferrell representing herself as interested in the subject and from Calif.

She was there when Mary had a phone call on the matter of as I recall Harry's March letter to her. So, what this young woman picked up could have been a source. Gary Mack told me the name of a young woman down there who is working for Harry but I did not write it down.

Then Harry told Mark that Herman Graf phoned him last night to caution or warn him about the content. I gather it could have been interpreted as a threat not to publish, if the content is not solid.

Telephone call from Gary Mack, just before I had to leave

The name of the young woman he heard is helping Harry there is Susan Scheckley (phon).

Dave Perry is staying on top of the Mary end.

Gary has found and will copy and mail me when he can additional unwise Livingstone letters.

What he read to me should be useful in completing the record on what Harry has been up to and for how long he has been.

Harry also indicated to him that he was working for or with the Baltimore police. He referred also to Dallas police or former Dallas police, a former FBI agent, who can be Paul Rothermel, in addition to his claimed Baltimore connection.
