Dear Mr. Davis,

You say of your interest in the assassinations of President and Robery Kennedy and Dr. King that you are interested in books "that shed light on whathappened to" them.

There are none. The problem with most of the literature is that the authors pretend to solve the crimes and don't and can't.

You ask about my books, of which I enclose a list, and I do not want you to be under any misapprehension about them. I do not ever suggest any solutions. None are possible.

I have made a rather large study of the official investigations of the JFK and MLK assassinations. They are entirely factual. No theories, no pretended solutions. These books and my other work are a study of how our basic institutions worked in those times of great stress and since then. They didn't and they haven't.

These three crimes were never officially investigated. All began with presumptions and preconceptions and were intended to make them appear to be credible solutions.

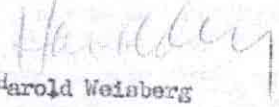

The other work I refer to includes a number of lawsuits under the Freedom of Information Act as a result of which I have about a third of a million pages of FBI, CIA and other records. They leave it without doubt that there never was any official desire or intent to investigate these two crimes. These generalities apply to the RFK case. I can't recommend any available book about it, either.

If one avoids the conspiracy-theory books it is possible to learn rather much about what the government says happened and how just about none of it stacks. My books are an analysis of what the government says, with many facsimiles of unpublished records. They also include the transcripts of several of the Warren Commission's "Top Secret" executive sessions.

In an effort to bring to light what you want to learn I was James Earl Ray's investigator, seeking a trial for him. My book Frame-Up was the beginning point of that investigation. We got him a hearing to determine whether he could get a trial and lost. But if you are near Memphis, the federal district court there should have copies of the transcripts of those two weeks of hearings and of the exhibits we introduced. In effect we exculpated Ray but that was not enough for Judge McRae. He denied Ray a trial.

If you have any recollections and heard any rumors when you were at Memphis State I'd like to know. Or if you know of any of the students allegedly used as his investigators by Ray's then lawyer, the late Percy Foreman.

Thanks for your good wishes,

  
Harold Weisberg

MR. WEISBERG,

I Am a teacher who just recently LEFT the teaching Field. I Am interested in the J.F.K, R.F.K AND Martin Luther King MURDERS. I WAS A FRESHMAN at Memphis STATE when DR. King WAS killed my INTEREST in the J.F.K, R.F.K, DR. King Killings has BE ARROUSED EVER SINCE.

I have READ every thing that I could on the DEATH'S OF EACH man. You ARE CONSIDERED by many as a LEADING expert in the THREE (3) ASSASSINATIONS. I WAS WONDERING IF you could RECOMMEND some books or publications that SHED light on what ACTUALLY happened to these men? I have READ many books that go OFF in completely opposite DIRECTIONS. Also do you have any of your publications that are FOR SELL and how many I obtain them. Any ADVICE OR INFORMATION will be APPRECIATED. Thanks FOR your time AND CONSIDERATION.
