Jonderful of Specifick is certainly right.

I've heard, but not enough, from Paul, he is very busy with much be did, his regular work with with catching up on both, 'ou'll beer from him in time.

I presume you are getting the film from Lifton, who seems to have gotten it from or through Gary and, typically, is making money on it. I've not seem either since I got UPI to make them available to averyone through making them available to me at the Archives. On Z, I should have told you that the Archives had to patch its own copy of a copy, the one they show, after it was demagnd, from use. It just broke. I'd be interested in seeing your I hotes, esp. if you can spere an extra copy for a young sen in TV who is also studying it for me. The copies we have of the same source copy, I presume from Lamarra (and remind me to tell you this story, too), have needless splices in them in an earlier generation. I also studied the slides more closely, still believe they are the best way, after chose examination in motion. I'll have a 16mm set of not the clearest slides soon.

I also have (but not bere) a 16 mm positive and a 16mm negative. Beither is of real good quality. This seems fellow wents to study N and N, and I've eaked Gary about getting copies for him. He has seen good copies of parts of both (USIA film, seen in Europe) and has some ideas. Still emother contact has seen can Italian version, appearantly of certificate the sand it paypens I have a contect even photograph be chienten provide gorden of these. Just in case I can come then would July 2 (late p.m.) through July 5th be inconvenient?

June 19, 1970

Dear Harold:

Thank you so very much for the offer of the "air conditioned room"... I just believe I'll take you up on it in preference to the chicken coops which are fifteen miles away. However, it may very well be August before I get to make the trip.

I've had a particularly bad few days this week and your very kind analysis of the situation seemed to help me. I really don't deserve friends like you and Gary and this wonderful doctor Gary found for me... Actually, I had thought I could afford the luxury of a nervous breakdown and was somewhat enjoying it when the problems with Jimmy Lee flared up again in a big way and I had to "take second wind" and start all over. Yesterday was our 31st wedding anniversary and I think Buck and I were closer to divorce than we've ever been due to all the strain of the past few months (and the past few days in particular). However, the more irrational I get, the more calm he gets and everything is fine now... at least as far as our relationship goes.

Jimmy was arrested two nights ago with something on him, so there can be no doubt now as to whether or not he is "fooling" with it. We spent \$675.00 last night to get him out of jail and this is just the start... But, this morning Sue Fitch called me and said, "Mary Elizabeth, as well as I know you and as much as I love you, I hate to ask you such a personal question, but I must. Do you need money? I have some and you are welcome to it." I told her that I had been fortunate enough to have had enough to cover it. When I called Buck and told him what she had done, he said, "Well, that is the test of a true friend. You can have many friends until you start talking about money and then they start fading away." I'm sure he is absolutely right.

I am enclosing a piece from this morning's <u>Dallas Morning News</u> you may be interested in.

Have you received anything from Paul Hoch since he returned to California? I haven't heard a word from him and we are so anxious to hear about the things he learned on his last trip to the Archives.

I am supposed to have copies of the Nix and Muchmore films in the next few days. Do you have those yet? I have already paid for them but was told they would be several weeks arriving. The time is about up now. You do remember that I got my hands on the Archives copies of the Zapruder, Nix and Muchmore and actually counted the frames and examined each one of the Zapruder film? I made quite a few notes on this examination. Would you be interested in them? (I don't believe I am correct in what I just said... I made many notes on the slides but a few on the film)
