

### Angela Resolution

*And Angela!*

SAN FRANCISCO—The black caucus of the American Federation of Teachers on Wednesday blamed "a blatant refusal to recognize the real issues of political repression and racism" for the defeat of a resolution calling for the immediate release of Angela Davis at the union's convention.

Delegates to the 55th annual convention of the 250,000 member AFL-CIO affiliate voted down the resolution, 634 to 208, and adopted instead a measure calling for reasonable bail and a fair trial for Miss Davis.
