

Wichita, Kansas

DEAR PROSPECTIVE SUBSCRIBER:

Have you ever given serious thought to the subject of PROPHECY?

Prophetic Scripture contains a definite message -- chart and compass, for the times in which we live. In the parlance of theological science, the study of Prophecy is called "eschatology."

Bible prophets, rising above the mass of humanity, were able to look down the vista of the centuries, to our day and generation. Isaiah devoted an entire chapter to the United States.

It was about fifteen years ago, that I began my research into the position of our Country in Bible Prophecy. I have since preached no less than 100 sermons on the subject. Isaiah's prognosis has been, through the years, a source of comfort and a confirmation of my faith in the preservation of America and democratic government in this part of the world.

I have written a 64-page book on the subject, entitled, "THE PROPHETIC DESTINY OF THE UNITED STATES." In the center column of page 23 of the enclosed Defender, you will find a short quotation from this treatise.

If you are not already a subscriber to The Defender, we wish to take this opportunity of inviting you to join our great Family of Readers (50 cents the year ... two years \$1.00). The blank below is self-explanatory.

With Christian regards, I remain

Faithfully yours,

THE DEFENDER MAGAZINE
