Mr. Harold Wiesberg

Dear Sir:

About the time your article came out showing the autopsy reports proving President Kennedy was shot from the front, I had made synopsis of 4 major crimes + had investigated and sent synopsis to Mrs. Ford and the mess I got in into now makes me wonder why the federals did not likewise raid your place threatening you .

ANY WAY AM SENDING YOU THESE short writings to show how the secret service wants to continue to cover up the assassination in Dallas. At my age near 74 and not well I cannot do much more but wait for help from somebody else to get my investigations aired to the public. I lived as a boy near Dallas have relatives and friends influential there just waiting for the truth to come out.

Sincerely D Ray Dickey D.D.

I also have information on Oswald nobody else alive has from the mammas and call girls in Dallas at the time.
