DEAR SENATORS AND REPRESENTIVES:

I am taking the liberty of sending a few of my synopsis of major crimes covered up I have investigated to my favorites among you of both houses and both parties in hopes some of you or all of you might have rapport with the white house enough to by pass questionable security and make sure if such synopsis were withheld from the Fords found to be incriminating, and eliminating my fear of such dirty tricks as a court order sending me to a psychiatric facility if I write the Fords more, I know of many cases the victim has been given the communist medicine to make him forget, or not care and no longer a threat to them.

Also I want to know if we are actually under a police state now and dont know it, if so I will abide by it, according to the bible advice, render unto Caesar what is Caesars and unto God what is Gods, and destroy a lifetime of investigations of some 700 pages and allow many murders, assassinations, kidnappings, false imprisonments, parole conspiracies, covered up for the priveleged groups in our society of sex hypocrisy to be burried with me, nearing 74 years.

If I hear no response from any of you I will understand you are busy and besieged by nuts but dont forget the bible admonition out of the mouths of fools comes the truth. I likewise have sent some information to others interested in such investigations, not in public pay.

Sincerely Yours

Dr. D. Ray Dickey, Optometrist
