By Leslie Miner An unusual outsider participated in the recent sit-in at Stanford. If you heard someone speaking the bywords of revolution in a southwestern drawl, or saw someone who looked like a combination of Marl-boro Country and the Left Bank, it was probably Bill Dobkins.
Bill is a Texan and a former

cowboy, but unlike the guys in the commercial, he has a black beard, he smokes Gaulois, and he's for

He left Texas because "the campuses are more locked-in than here. . . . the students are unable to relate their struggle to anything

else, and the workers are stymied."
"I heard about Berkeley and
other things going on around San
Francisco," he says. "I saw a picture of Joan Baez lying in the street

and I dug it."
Now Bill lives in a Socialist Workers Party commune on Ashbury St. (although he's not a SWP member), and his main occupation at the moment is a seminar in revolu-tion at the San Francisco State Experimental College. During the day he reads in the SWP library or "snoops around out at State." His family contributes what it

can to further his activities ("We pool all our goodies in one pot"), because he has become a revolution-ary in response to what happened to his family. Otherwise, he gets by with a marine pension and a little help from his friends.

RIG SHOTS

Bill tells how his family was "legally" dispossursed by some of the biggest shots in Texas.

His story begins with his great-grandfather's will.—in which every-thing, primarily 7702 acres of land (with 14 oll wells on it), was left to one granddaughter, Bill's aunt, who lived in Hawat's

lived in Hawaii.

Understandably, Bill's grandfather protested, and he had very
good legal grounds: the will was

written in 1934, but in 1928 great-grandfather had been declared

mentally incompetent.

The case was set to be heard on September 10, 1941. However, on the third of that month, after seven years of patient waiting, grandfather was murdered,

Shortly afterward, two suspects were arrested in connection with the murder. One was a relative who stood to gain from it; he was "turned loose," according to Bill, and the other died as a result of a "jump" from a high window. Bill's mother and the daughter of the dead suspect carried on an investigation together. until the latter was found dead in a

hotel room with marks on her neck. When the U.S. entered World War II, Bill's uncles (his grandfather's sons) were drafted. His mother remained at home, basing her claim to the family ranch on the "adverse possession statutes." (For those of you who are unfamiliar with this Texan practice, it means that someone has a right to whatever land he's on because he's strong

enough to keep other people off it.)
She continued to raise cattle, although a more profitable use of land in Texas was to be a nonproducing cotton planter. The govern-ment paid cotton farmers 33¢ not to plant a pound of cotton that would bring 25¢ on the world market. She was also being sued by an oil com-pany which had bought the land cheaply from her cousin in Hawaii, The lawsuit came to a jury trial in 1955. It took the jury 45 minutes to answer fifteen questions and to decide in favor of Bill's mother.

However, the oil company began proceedings to appeal the case.

Meanwhile, Bill was beginning to have troubles of his own. He was a senior in high school and his girl friend's father had decided to build a pipeline for Billie Sol Estes across the Dobkins' land. Bill's parents refused to give the easement. His mother was certain that these people were in some way responsible for her father's death and she refused to deal with them, although her brothers were against her and Bill's father had been seriously weakened by a heart attack.

Bili himself was "run off" his girl friend's land, and subsequently his enemies tried to buy him off with an offer to cowboy for \$500

instead of the usual \$200 per mo. Instead, he joined the marines. Bill said that he was sickened to see "capital being employed against me, to bait me," While in the me, to balt me, "while in the marines, he began to think seriously of defecting to a workers' state. On October 7, 1958, the appel-late court reversed the earlier jury

decision in favor of the oil company. One of the judges had been district one of the judges had been dastroit attorney when Bill's grandfather was killed. The other, strange as it may seem, had presided at the earlier jury trial when the case was in the district court; as Bill sees it, "he moved up with the case."

moved up with the case."

A special ruling by the governor,
Price Daniel, enabled two judges
instead of three to decide the case.
In December, 1958, the case was
taken off the law books, W.O.C.
(Withdrawn on Order of the Court),
and in March of '59 the Dobkins
family was forced off the land. The
than who did the juc was Gld Redding,
someone whose qualifications for the
office of deputy sheriff were very
impressive. He had robbed a bank
in Hatch. New Mexico, and was also in Hatch, New Mexico, and was also being paid \$1000 a month by the very oil company that was getting the land, Bill meanwhile had "filed for a

hardship," that is, he asked to be discharged from the marines on the grounds that he had to support his parents; he says they were living on \$100 a month social security, plus \$3 a day from a bakery they started. He was finally released in November 1959. When Bill Dobkins says that

when but bookins says unat he's "fighting the establishment from the president down," he means it personally. Around the time his grandfather was killed, "Billie Sol grandaner was kined, blies of Estes, the off business, cotton farming, and LBJ were moving up together." But Bill also sees his own situation and theirs in a larger perspective. "The capitalist system creates surplus," he says. "I know the cotton surplus. You have to control where you dump it, and this is why we have wars, Visinam. I think the whole system should be changed. If I don't have my land, my right of ownership, nobody else should have theirs. This is where you start, but you study Marxism and you get away from your own person-al thing, you see it in more general

terms. . . "
The judge who had been district attorney when his grandfather was murdered and who heard his mother's case in the appellate court, is now also a regent of the University of Texas, LBJ has plans to teach there when he retires from his present position. Bill says that if the establishment has its way, "crooked regents will see to it that the only men who work will be those who know how much napalm is displaced by charcoal the size of my fist. . Either we will continue to make napalm or learn to live with our brothers."
