Dear d,

I'd like to see you when you return from Israel.

I think there are many movie and TV possibilities in work I've done, much of which is entirely unknown to you. Or almost anyone else.

There is, currently, interest in Hollywood in a movie about me in the King/Ray case. (The friend who is a publicist and is acting as my agent has family problems - wife's probably terminal interest - and has not done well. Any ideas?)

Can you see an inexpensive and very topical TV special in this new work? On CIA?

There is interest in the 26 volumes. How much do you want? I can probably sell them. From time to time I am asked. In the course of time I can get any reasonable price for them. However, if the price is reasonable, I'd prefer to buy them and hold them for someone who has more than curiosity interest because they are scarce. This way you will not be held up and I can control who gets them so that someone who can use them well does.

Should you come here - this is an invitation - you might be able to bring them. If you drive there is superhighway to seven minutes away and not a single traffic light until that point, where it does not stop you because you can turn on the red signal. Easy drive, 4-5 hours, depending on traffic. A little over an hour from Washington or Baltimore airports.

I think I have what could make movies both commercial and socially useful. I mean this in the plural. And if anything can break the case open, I have that work done, too. I can't pay the printer so it isn't printed.

Best wishes,

See 1/25

Dear Harold,

People call me 'd.' Enclosed is my check. I am extremely interested in what you're doing. Are complete setsx of the Warren Report worth anything at this date.? I'm off to Israel today and would like to meet with you some day.

Best wishes in your undertaking,

d
