

Dear A.I.,

11/25/80

Odd that you should mention "ardee in the letter I got after seeing a little of the last half~~xxx~~ of the Cowboys/Redskins game. I'm not a Redskins fan <sup>but</sup> ~~my~~ your boys lucked out. They really didn't play well enough to win.

My artificial artery seems to be functioning OK but the other problems persist, thanks.

The <sup>14</sup>arena-exhumation situation remains interesting. She was on Good Morning America yesterday, when I was at the Lab getting my blood tested. I can understand her concern about whether there is any body in that grave. And her desire to resolve this and other things that might later plague her children.

Surprised that none of the stories were by Golz.

Penn Jones is of Midlothian and he has written several books, all with the Forgive My Grief title, all consisting of reprints of the editorials he ran in the little weekly he owned. He is a gutsy, well intended fellow but I think he's a bit wild.

This was a quiet commemoration for me. I never do anything to commemorate. I was asked for comment by the local CBS station and to do a show by phone to a NY station. No more.

Hope the samples you are about to give up are the quiet kind from which you hear nothing.

Thanks and best wishes,

Dallas TX November 22 1980

Dear Harold:

This is an appropriate date to be writing you! What a day!

The other day I just got a few words from the radio and saw (Middlethian) nothing in papers - but that bird at Middlethian who wrote a book said that regardless of what was said he would continue his investigation. Seems like the name "Jones" was mentioned. I don't know if that is his name or not - I did know but have forgotten.

Hope that your "implant" is functioning satisfactorily. It is raining and nasty here today. We have had a few nights of below 32 but generally our weather has been good up to, today. It is about 50 degrees - prospects next week look good.

Going to doctor Tuesday to have a few places burned off my face and back. If you live long enough you will have cataracts, prestate trouble and skin cancers!!!

We don't have a state or city income tax but they sure to hit us with a personal property tax on all automobiles valued \$300 and up regardless of age. This is a city-school tax. My car is 8 years old and they got me for \$15. Bernice's car is over 2 years old and they got her for \$45! However, since we live in a modest house taxes on it for the year were only \$7 \$9.

I had best be going, have to write my weekly article for the church paper (Methodist). Take care -

Best,
