

12/1/79

Dear A.I.,

Everything is pretty good in "My Maryland" country, except the temperature, which at this moment is 20°. However, I'm keeping us warm enough with only the fireplace stove. This has a side benefit of exercise for me, from stump to ashes.

And as what you refer to as "ho,ho time" gets nearer, I wish you the best ho,ho season, all ho hos.

The clippings are valuable. Thanks for them.

Even the anniversary observance. It has future historical value.

I wish Dallas were going to make the USHD into a more meaningful remembrance.

Merely repeating the now conflicting official accounts will mean more criticism for Dallas.

Best wishes,

Dallas, TX November 27, 1979

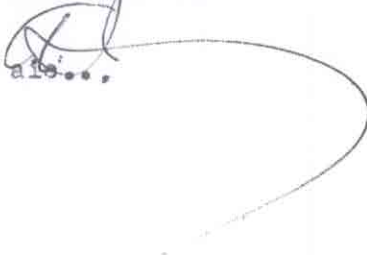

Dear Harold:

Thanks for info re wood stoves - very thorough. I recall that in the very dim past we had a coal stove near pulpit in our church and had the brand name on it "KING COLE".

Well, its getting close to ho, ho time and the tempo will increase and will suddenly deflate around January 2.

Hope everything is fine in "My Maryland" country!

Best wishes,

A handwritten signature, possibly "A. B.", is written above a large, sweeping flourish that extends to the right and then curves back down and left.
