oratories has demolished a lick said the analysis showed widely circulated theory that hat the object that apparently a second gunnon was involved was a station wagon or some in the assassination of Presitent Kennedy.

The Itek Corporation disand 20 feet behind the "shadow

car in Dallas on Nev. 22, 1963. Itek made the study as a public service.

The S-mm color motion picture was shot that day by Orville Nix, a Government employe who was standing among the parade spectators in Dealey Plaza. It shows the President hit by the fatal bullet and Mrs. Kennedy climbing onto the back of the convertible.

In the background is the thought of the convertible.

In the background is the thought of the convertible would make it even more unlikely—from the aperture between the picket fence and a white concrete pavilion with a low wall.
