Doer Lro. Payne.

I quite agrae with you: where are Jack dense by's friends? I've not in py way changed the opinions I expressed about them in the applicate to SHITE-WALL II.

Certinal Jushing is aging, has many other responsibilities, and is strings troubled by the kinds of complications to coult set into. I want in Boston in September and tried to get to seek with him. He had appointments made in advance and was tist up all the size I was there.

I can of login to try and get in touch with those allegedly the friends of the late Free lent. They'd four it if I did showsy. A , we plug slong, older that we feel we just as we can. If a news so do it slong, we will.

I do not scoff at what you say. Thile I do not have extra-sensory parception or snythin like them, I am untroubled because I have long felt that the fooling that what I am doing is predestined and will succeed.

Nor do I laugh at what so a ted neited scientists is not some t. I have held my own experiences. I have a lower-back injury that no doctor has ever been able to help. I have misgivings about chira ractry, but I know I have willed into the eniropractor's office with the greatest difficulty and sain and on crutches and actived out althout help are win.

From your letters, + know the encouragement, ke p your spirite up, is entirely unneeded.

Dear Mr, Weisberg:

Thank you for your letter of December 31.

I don't think I made myself quite clear. You are a very dedicated man--- thank God, I, in mix way, am as dedicated as you are.

I am positive that the truth is that Oswald dod not kill J.F.K. but you can be sure that plenty of people are being forced to believe that he did.

Your letter caused me utter dismay because of the terrible difficulties that you are thing having. Where are Jack Kennedy's friends? I knew a few of them who thought he was os wonderful but now, in that respect, I realize it was only because he was running for President.

The one man in the whole world who I feel id so completely sinmere, is Richard Cardenal Cushing. I knew how he feels and he is the only one who is very close to me on this subject. He is the one who sent meyyour book "Whitewash". In fact, one time, when he wrote a letter to me, he said that he felt was a lot more than Oswald or anyone ever knew.

I just whought about someone else who is supposed to be a good friend. He is the editor of the Cape Cod Standard Times. There is a news paper and surely that would be a good medium to reach people.

The shape I am in a is unbelieveable! I know of noone who would have the fortitude to struggle with life at it's lowest, common denominator. You can certainly appreciate what I am saying. I've promised myself that if I ever get better, to go on with this particular persuit. I'm like you, I'll never give up! Right now I'll do whatever I can. I feel that you and I should meet and I geel that there is much that we could accomplish.

The most important thing is that sudden revelation that came ever to me soon after the assasination and which I wrote to you about. I am not stupid, I've had a fairly good education and I am certainly not a crack-pot but this was a strange circumstance and I am not foolish enough to ignore it. I believe in Psychic Phenomena and have done some work with Proffesor J. B. Rhine at Duke University.

It is a known fact that anything people cannot understand they laugh at and ridicule. So maps of my froends looked at me skeptically amd smiled when I told them I was sure Oswald did not do it.

Now, I wonder what has happened to the whole Kennedy family. They don't seem to care at all. The only one who really cares in that group id Cardinal Cushing.

I have a summer house in Hyannis and the Cardinal came to visit me. On one wall in my living room, I have a picture of the Cardinal and J. F. K. When the Cardinal walked in, he looked at the wall and said, "Cushing and Kennedy." He was very pleased. He is one friend that we can count on.

You of course, know of Barry Gray here in N. Y. He has a radio station, W. M. C. A. and he has had quite a few people on from time to time including Mark Laine, the lawyer who wrote a few books. Mark Laine has been to Dallas quite a few times and had been on T.V. quite a bit but nothing happened. Then there are many people who said he was only interested in making money.

Will you please not be a stranger because I feel that there will be a lot of good what we could accomplish. It's a strange feeling but some ow, it seems as if it's predestined.

Thank you again for your letter and please come to see me as soon as you can.

Listen to this, tomorrow I'm waiting for a doctor from to arrive from Isreal. He has a treatment which he has invented for MS. He was over here a short while ago and a few people that he treated are much better but would you believe the medical profession here in America laughed at him. If this treatment does comething for me, I will accomplish more than Don Quiote!

I will be in touch with you and keep you appraised of everything.

Sicerely,

Regina Brand Fayne
