

6/26/97

Dear Ray,

I must have written the address you gave me wrong.

= Will you please re-mail it for me?

Thanks.

I spent the day after I mailed this in the local emergency room while the tried to identify the cause of great weakness. The tests were negative so they took special tests the results of which are nor yet back because the doctors fear that medications I require are the cause.

The critical care expert is amazed that I am and have survived all that is wrong with me and the dermatologist, who I have to see because of the itch caused by some medications, says she considers it a miracle when I walk in.

I've been given up three time that I know of so a little of what may be in Maggie's mind is always in mine.

But I was so sorry to hear of it.

Hope all is well with you and yours. Best,

Harvey

Dear Harold - The correct address
is 2905 Deep Canyon Dr. (instead of 905).

I just re-mailed your letter to her.

Hope you continue to amaze your doctors.

Best wishes,

Ray 6/30/97
