Memorandum

*Wilwood - 9
Carpenter Dr. #19*

TO: SAC, DALLAS (89-43)

DATE: 2/15/69

FROM: SA ALFRED C. ELLINGTON

*you say
E D Wylee
10505 Cole Ridge*

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY,
NOVEMBER 22, 1963,
Dallas, Texas

MISCELLANEOUS INFORMATION CONCERNING:

On this date, REX M. OLIVER, 5810 Phoenix Drive, telephone EM 8-2130, contacted the Dallas Office by telephone, and advised he is employed by the Texas Highway Department, and was so employed during October and November, 1968. During this period, (October or November, 1968) while he was working in the vicinity of Commerce Street and Stemmons Freeway, "at the Commerce Street entrance to North Stemmons Freeway", he found a bullet "which appeared to have ricocheted off of something".

He said he picked up this bullet and put it in his pocket and has had it in his possession since that time. He said the bullet was "somewhat corroded, as if it had been in the weather for a long time". He said he mentioned his finding of the bullet to his engineer, who suggested it may be the "third bullet" which he had heard about in connection with the assassination of President KENNEDY, since he found it "in just about the right spot".

Mr. OLIVER said he has been trying to contact "MR. GARRISON, in New Orleans" for about the last 2 or 3 weeks, but has been unsuccessful, and desires to furnish this bullet to the FBI "if you want it".

He said he is currently working on Highway 114, near Highway 183, and can be reached through the Texas Highway Department field office in that area, BL 4-3556.

Mr. OLIVER said he does not know what caliber this bullet is, but that the "front" of the bullet is the only damaged portion, and he feels the caliber can be easily determined by someone "who knows something about it".
