Enclosed are the original and two copies of memorandum responding in full to an HSCA require of May 11, 1978, which asks for

The Committee is making this request at the FBI's suggestion in lieu of a request for all President John F. Kennedy assassination files in both Field Offices.

Several weeks ago, HSCA Staff Member Robert Genzman informally inquired regarding the feasibility of obtaining all assassination files from the FBI's Dellas and New Orleans Field Offices. He was then advised that the sheer volume of such files (approximately 41% volumes or 170,000 pages) would create a severe burden on the FBI to obtain, reproduce and process them for HSCA access or delivery.

It was pointed out that such an undertaking should be approached with judicious consideration since. as the Department is aware, in a case such as the assassination of President Kennedy, all substantive information being reported and recorded by intra and interoffice communications was ultimately included in reports or communications furnished to FBI Headquarters (FBIHQ). The MSCA has already had access to or delivery of all such reporting from the FBIMQ files on the President John F. Kennedy and Reverend Martin Luther King, assassinations. Furthermore, the HSCA has also received delivery of the Memphis Field Office files in the King assassination and these should amply demonstrate FBI reporting procedures. If the Committee has found anything to the contrary during a review of these files, it should, perhaps. be requested to identify such a specific instance in order to show cause why it requires review of the voluminous Field Office files pertaining to the assassination of President ennatty.

suggested to be Geneman that the countries has been suggested to be Geneman that the countries has this present request so that upon delivery of the Presessionation documents, it might thoroughly snalyse and compare the Pield Office documents to the PillO documents already furnished. By so doing, it should become apparent to the Countries that to substantive information bearing as the course or outcome of the Lee Harvey Obvald investigation was omitted from reports or domain leations withmately directed to PBINO.

In addition, it has been suggested that, once the HSCA has had emple opportunity to thoroughly digest the contents of the preassassination field documents as compared to the FBIHQ documents, should it have further reservations about the type of information residing in Field Office files and not sent to FBIHQ, it might then consider requesting documents from the Dallas Field Office postassassination files for a very narrow time frame. If this fails to satisfy Committee requirements and if you concur, the Committee would then be offered a copy of the Freedom of Information Act release on the Dallas Field Office President John F. Kennedy assassination files, which will be produced in response to a pending request from Mr. Harold Weisberg. However, it is estimated that at least 90 days will be required to process the Dallas Field Office files requested by Mr. Weisberg.

In short, an existing court order requires production of the Dallas and New Orleans Field Office files for Mr. Weisberg. Absent a compelling reason not presently in evidence, it is felt that a Committee request for a separate production of all Dallas and New Orleans Field Office files would create an undue burden on the FBI's already strained resources in this area and should be resisted strenuously.

You are requested to furnish a copy of the memorandum to the HSCA.
