Mr. Henry Kelley, Assoc. Dir.
U.S. Secret Service
Washington, D.C.

Dear Mr. Kelley,

It is some time since I heard from you, about a month since I responded. I hope this does not represent diversion to the period when proper requests were ignorantly ignored.

However, I will do my best to do the things I have requested. You will recall that the conditions of my original request, with which I discussed these things, were that you would credit to keep the various items in mind. Aside from your own notes, you have had to remind you. Because I am aware that you have pressing obligations, I have not waited after you about this, but my interests and the information, when it exists, is unchanged. And quite some times has elapsed.

Among the things in which I have most interest, things that do exist and have not been mentioned in respect to my requests, aside from those about which I have recently emphasized my interest, are these two:

The autopsy notes, conveyed to the Secret Service, in part described in Dr. Muncie's hands which were testified, and of which other proofs are in my possession. These were made, did exist, and I sent you a copy of the memo with which they were forwarded and receipted by your agency.

The statements obtained by Secret Service agents from the Parkland Hospital people, referred to in CDBZ. My last request, of the Archives, for these, dated November 18 of last year, is attached hereto.

I remind you again that I have not received from the Archives that which you told me you had given them to be given to me. They have not, in fact, even written me that you forwarded these things. I remind you again that this manner of delivery is not prescribed by law and does not meet with my request, especially when not accompanied with the covering letters. It would be helpful if I had a letter covering these.

If you believe another meeting could serve a useful purpose, please let me know. As matters now rest, my options are more limited than they need be or than I prefer.

Sincerely,

Harold Weisberg
