Dear Roger,

Lil told me of your call when I got home Thursday night. If you had called Friday you would have found that I had to be in court again the next day and was not home again.

I know you are no longer with CBS but as you know, not the details.

They could not have picked a worse time to get rid of their unpaid (for it) expert!

There are many things I'd like to discuss with you, including your situation and mine and the new House committee and what to expect of it.

This means what you are doing, plan to do, want to do and are able to do.

For starters take it as my reading and Jim's that the situation with the House committee, as of now, is not good. And have nothing to do with them in your own interest. Them or anyone associated with them.

It is in this context that you might be able to give us some good advice.

NBC, with Lane and a motley gang, are engaged in a very large ripoff. Abby Mann is their Hollywood producer. He has already had NBC air the theft of what I turned over the Lee Payne, and Newsday copyrighted, as the result of his own investigative reporting. Lane has rushed into underground print on the same.

These people are playing into federal hands.

As of now Jim and I have no court date until the morning of 9/30. We have one then and in another case the next morning. Until then I plan to clean up an addition to the previous accumulation during the six weeks of preparing for this week and then I hope to get back to completing the draft of a book for which I now have no real hope, the new King book.

If you would like to come down and see, driving is easy via the Jersey Turnpike. Bus connections out of Frederick are not good but to Baltimore not bad. I could meet a bus at the Frederick station, about 15 minutes away. I find that the bus and other public transportation permit reading, which I like better than driving. If I could.

Meanwhile, if you see anything anywhere by this cabal of crooks and disinforma-tioners I'd appreciate it because the time will come when it may be valuable. No matter how insignificant it may seem it may become important. As things look now this bunch will play into spook hands and the spooks will be able to bring necks.

best wishes,
