It has been a long time. If I'd known how to reach you by phone we could have spent time together when I was sleepless and killing time in NYS prior to am appearance on Good Monring America.

This is in haste on the chance I can save a day if I take my wife shopping shortly, as is possible. It related to a major development, a very bad decision by a very bad judge in the spectro case. The immediate need to is build the record for appeal, for which we have 14 days from yesterday, by means of a motion to reconsider with attachments that will include another siridavit from me.By the way I have along and definitive one filed in this case tobgether with one by Jim Tague, who is know a good friend.

Ferry and Carrico had left Dallas. I was taken ill and could not get to them. I've asked

him for an affiduvit without being able to sit down and discuss it.

However, he also has a copy of the press conference transcipt. "t was given to him by Hamks. I did not attach it to his affidevit preferring to have it available for a rebuttal affidavit if filed (the judge made it unnecessary by daing it on his own!) and as an attachment to the motion for reconsideration because there was never any doubt about the decision.

I can t find my copy. I have it but I don't recall how I filed it. So I'm asking for a new copy, please, and the bests copy possible to file after the requisite number of copies are provided. It would be best on a zerox or similar machine because of this need.

If there is anything else relevant that you can spare, like a Westen statement that presents no problem, anything relating to a front wound or to the holes in the shirt. we can use it and would use it only as an affidavit attachment in court. I recall that Westen made a statement after his airing by CRS.

Your long silence has made me curious about your situation. Job yet? Writing book yet? Otherwise Oksy?

What appears to have happened to me is an arterial complication not as yet fully disgnosed. It further reduces my working day, requires more rest, and had made a major reduction in the physical work I can do. I've been rebuilding my strength with some success over the past two souths but this rebuilding to date is limited to the legs.

Hope your affairs and life are foing well.

Thanks and best,
