Dear Bud,

When you were here I loaned you my only copy of the DJ-Bundy papers I had from Faul. You were to copy. We both forgot Thursday. could you please have your girl make you a copy so I can pick it up Friday?

May I also suggest this is something I should have been given or told about when I made the request from your office in your presence for the Public Disclosure file. You already have a copy of the various documents I have from this file, one with this heading. I have beginning with page 9. What I asked for is beginning with page 8.

As this sort of deception eccumulates, I think it will be impressive in court. At least it will make a solid record our way.

Nothing else new.
