Dear Vivian and Bud,

Finished with the very helpful clippings, returned by hand prob. Tues.

However, what I most wanted is missing: the Tenn. papers' stories on the false radio and his comments after sentencing, while being taken to Nashville and afterwards, on appeal, etc.

I'd like to make this suggestion about mountin' with Scotch tape: if Magic tape is used, particularly if it is rubbed or burnished, the glare is eliminated and copying and reading are easier.

Going over a large batch at once makes me feel a complete Lomax file is more important than I earlier had thought, I mean not only a complete files of his stories, but what he has that he didn't use. I strongly urge that you write or phone and ask.

What is in Lomax on Tommie and the friend at ITM are even more provocative to me now.

Is the name of the New Orleans girl on the last (or said to be last) trip known?

The answer to Canale as you expressed your doubts is in these clippings. He is a perfect duplication of the WC lawyers, as on the ballistics evidence. He and they had to have known better. In this connection I feel even more strongly than when suggesting it that the time has come to speak to ACIU lawyers. This will all be spelled out when I finish this writing.

Remember, I asked for a copy of Canon 5. I once asked Bill for a copy of the Wigmore quote on cross examination. He couldn't find it.

I think even more now that I have spotted a viable legal approach at the proper time. We can discuss this. I think these characters omitted something they should not have in their appeal.

Your question, how does Hill fit in? He is a personal friend of Stoner.

Would you be interested in a tough job for your new girl fluent in Spanish? My Evaristo Rodriguez and other tapes on interviews with Latons (other than Pena) are not transcribed. I think they may well tell us much of the counterfeiting of LHO in NO and of others, like Bringier.

I do need the typescript of the trial transcript.

Not only autopsy pictures-original notes, complete, also. And all receipts, including those signed at hospital, inc. by Kellerman.

Thanks,
