I sure hated to have to take time for this disaster some lawyers have charged Emory Brown I presume heavily to do. I also wrote him earlier. If you do not have that letter, Bud does.

Bud does.

Bud asked me to write Popkin, that is the address he gave me. Would you please forward to his correct address?

Thanks for list declassified. I can't even look at now. (your 1/22, fantastic time!)
No time for Lamarre or writing Levine now, either, but you might ask him if you are
in touch.

Frame-UP: I haven't a set of BOMs, but the proofs did not have chapter headings.

The table of contents indicates what they are (were-may be). That line is one I intend to feed Canale if I get to speak there. There was also a stipulation to evidence to feed Canale if I get to speak there. There was also a stipulation to evidence that is supposed to be part of the record. On have never had one to the best of my knowledge, and I've asked of ten enough.

I got Bid's Bowen mailing but wont read it until I have a few minutes to spare or until I fi ish response in 2569-70. However, the letter signed "Bill", which I take to be Turner, is more immediate, relating as it does to the Ray case. I agree withhis evaluation of the evaluation but not with his candidate. I think this means a much better and much more dependable source that Brooks. But I can be wrong. The rest also is very interesting. I wish I had more confidence in that spurce, for he has often presented things as established fact when they were not. Beeny in particular. The questions should include do Jerry or John know Beeny and was Beeny NSRP? The Robert Owens history should include do Jerry or John know Beeny and was Beeny NSRP? The Robert Owens history is also interesting. I'd be inclined to doubt "clinet's" hanging arounf Williams place. There is a nut Billy Williams in the WC materials. Anderson: he might have considered that what he terms "gratuitous speculation" vs RFK and CIA was leaked to Anderson by that what he terms "gratuitous speculation" vs RFK and CIA was leaked to Anderson by that which he had close co nections and was favored with many leaks. The last sentence states interesting coincidences. Whether more I do not know, but it is possible sentence states interesting coincidences. Whether more I do not know, but it is possible that the news pegs caused inquiry of official sources. Guess I'll have to start a "leads" that the news pegs caused inquiry of official sources.

Response: I've finished draft (unread) on Archives unsuable, have more readily made notes on other parts, and am now putting together a complete set of relevant correspondence which will be in a separate file so I can address that. I've broken the picturesinto two files, ole of originals. This can be quite a thing if there can be time for putting it ogether right. They misquote the law (two different ways in rwo different cases). It is ogether right. They misquote the law (two different work. They have given me enough to defeat and I have found the most serious flaws in their work. They have given me enough to defeat them if the judge will read and be impartial. I sked Bud to ask bon to get me a copy of the regulations. Please do not let this slip, and if you go there first, please do it and make five copies, for which I'll pay.
