Bud and Jim:

Your Foreman/Griffin transcript is incomplete in at least one major respect-it does not include Foreman's refusal to talk about the Angela Davis case on the ground it is before the courts. Obviously, this adds point to his comment on the Ray case. I have given my copy to WNEW-TV to use as a basis of questioning Foreman. I would like to borrow the tape to dub portions out.

In the course of preparing for this appearance, I have gone over my files that you returned Thursday. Not finding certain things does not mean that you have them, but it can. I list those I didn't find and do need:

Foreman on "and 60% is mine, all mine". This includes even notes on the radio use. It includes references to the Carlo Ponti contract and the response of Ponti's spokesman. Perhaps you took these out to copy and didn't return. I will be giving you herewith one file of copies on another subject that you gave me by accident.

The full Cavett transcript.

Stanton in the case in the first $\frac{1}{2}$ hour.

The Burger file.

There may be others, but having looked for and not found these things, they are what I missed.

I also didn't see my copy of Blue Bonnet.

Wednesday and Thursday nights I will be at the Roosevelt, 46 and Madison. If I stay over Friday night, which I do not now plan, I'll probably stay with Jerry. I do not anticipate that you'll need to ask me but anything, but this is in case.

For both of us, especially for my current appearances, we should have the clipping Ryan has, referred to in Wayne's letter to me of this past week, of which you have a copy, detailing the early public appearances of the prosecution. I want to lean heavily on this in my appearances.

Instead of airing on 3/20, which is what I was told, I now understand that this show will be aired 3/27, which provides time for promos. I'm doing at least the Gale (Friday) and Franklin (WOR-Thursday) shows. Others are possible.

Dolores found her conversation with Bud helpful and commented on it to me.

Hastily,
