

Dear Mud,

11/19/74

A new BankAmericard bill came today. It includes a \$12000 (twelve) charge for the period of our discovery trip. I do not and did not remember it as I checked the list I gave Carmen and it is not on it. It is an airline charge. While I don't recall it, I am certain I have done no personal flying in some years.

Best,

Dear Bud (and Carmen),

Our trip to Nashville and Memphis was hectic and successful.

We learned Nixon's biggest mistake on it: that he didn't recruit his stonewallers all from Tennessee. It was rough, very, very rough, as have been the chaotic days since return. Terrible people.

As you might have anticipated, I worked nights. The results are interesting. They have no useful relevance to the evidentiary hearing but when it is over, I think what I'm onto will interest you. It in part relates to a strong suspicion I have had from the beginning and I recently learned you also held.

I don't think we should take time from preparing for the hearing for it.

Jim and I used my Rancamerica card for the car rental in Nashville and for the motel for both of us in Memphis.

Those receipts are attached with an itemization of my expenses.

Sincerely,

Nashville-Memphis 9/29-10/4/74
