Mr. William Ohlhausen 910 16 St., 6 fl. Washington, D.W. 20006

Pear Mill.

PV

A Charles

Although neither you had a chance to receive my yesterday's latters by today. I do not think the world would have been rent asunder if that spitomore of the most courtly and namerly of the south had place a call to convey a small part of what I "learned" in a conversation with "im I delayed until after 5 p.m.I can ill afford such calls and on this matter there will be very few. Whatever the perfects, that money invested in other ways, like lawyers, holds more premise.

To simplify what Jim said about Bud, it is that the story was old (true) and that it was unfair and/or unkind set to Jim and/or me (tsue). But what I cannot and do not believe is that a reporter of Paul Valentine's expectance made up all those quotes and paraphrases. It is not only that "have faith in Paul's intemprity but I have too many cases of Bud saying the same thing -on tape and by witness statement.

Jim told me that he and you had spoken, that you haddagened that y the applicantion now is peace and tranquility until after the 6th direct rules because this is key's interest. Purhaps. But I see it as the primary interest as the Bud who has messed this case up from the very beginning. More his that Rays. Were Bud to quit or be involved in anything having to do with the case, the deficiencies of the record would have be more, not less manufacts comprehensible to 6th direct. In no way except inadequary of counsel would be that of Rud. This is the actualities before 6th direct does not appear because of the vere those like I, who put Ray's interest first. But certainly didn't.

To put this another way - and do not take it as an accusation -if you had set out to con our trusting friend Jim there was no better approach. We spent close to an hour discussing this ténight. I made no such suggestion to him. I santed to learn what he knew and had been told. Not argue or accuse. If this is to happen there is a different forum for that, As I recall it, and I'm quite tired and may be wrong, you said to him that we have to hushbush all this to protect Ray's rights until after 6th circuit rates, Maybe Jim buys this but I don't. They rule, Bud resigns, leaving us the impossible job of making up for his deficiencies, and, haloed, rides aff into the sub.

Maybe im goes for this bud I den't. I see Maybinterest as lying in an issediate and unequivocal addressing of this most recent of my compliants. There can be legitinate differences between sen of honor, and I can conceive of the partner of the villain as a men of honor, but the eny I see you explanation to im is service to Bud's guilty interest, not to May's innocent interests.

Quite aside from this is my own. MR I'fe said, I think, enought of this, but if you want more I can come close to guaranteeing you'll wonit.

It is not possible to persuade se that it is "ay's interest that is served by nobody doing or saying snything until after the 6th circuit rules. The only interest/served by that is Mud's and perhaps/the partnership's. Not Ray's, not Jim's, not mine.

Jim says that you believe Bud's gratuifous, große and deliberate lie about so to Unii namm id nit libel. Kaybe. I wen't now argue the point, But I will tell you it is not isolated and that hibel is not the only wrong.

The last time I tailed day out of firing Bud Bud told me he was not sure he can better off for it. I can now see this better. But I surely cannot see Hay as better off if, after the 6th circuit rukes, however it rules, Bud finds some lawyer's politoness and hows out and leaves to "im an andme, neither with resources, the job of undoing all the close to irremedial harm Bud has done the case.

Buf and I did have any agreement. There is proof of it. There never was adherence to it. Now he has provided me with proof other than from me of his violation of it to buttrees what i had before now.

By the time I obtained most of it Ray's interest was involved, so I was limited if not procluded. Selieve me or not, I have not indicated to you the me true nature of what I later learned and can prove, all are not related to the Ray case only. Some are related to Suk's supposed representation of me in a case that he surely blev and I think it could be fairly aliesed threw. If he wants to argue incomptence, I'm of a mind to give him the chance. But if he does I'll produce letters from me asking a different approach to which he repeatedly agreed only to then do the opposite. And this is/not all.

Bill, I've more than had it. I've been cilent because of Ray's interest. Now I see silence as not serving Ray.

And quite separate from this is my own rights.

W 3 4

TO STANKING TO

I am not going to be satisfied by this city slickerism, this smooth talk, this invecation of pribriple. The last time for that was more than a year ago. And of that, teo, I have more than ample records.

Let Jim believe what he wants. I don't buy the story he gaves me. And I'm not able to afford the cost of those long calls to him to learn the last engs job he had.

I know you have just returned from vacation and have much to eaten up on. Well, I don't know what a vacation is and thanks to but I'm fasthur behind in what I have to eaten up on. I'm edger than you and cick, but I'm cortain that today I work a longer day. So, if you have any interest in this remaining a private matter, let but take a little less time for touting/himself to the world or taking other vacations, as in preparation for the lay case, and let up take meaningfully. The time for smooth take and con jobs is pant.

I'm not going to try to kid you and tell you what I will do. But I am telling you that this last obscendity leaves no limit to what within reason and propriety I am willing to try to do.

What Jim was told about Baul today can't be true. But if it were, at the very least Bud could have had, say Carnen, call me with an apology. I heard nothing, and I don't believe Bud, whose record of lying is rivaled in mythelogy only. I do trust Faml's integrity. I'm confident he can produce his notes.

If there is to be a serious word, I'd like to hear it. If there is the souner I know the souner I can explore my laternatives. Only no greeny kid at aff.

Sincorely,

Harold Weigher's
