Mrs. Mary Ferrell 4406 Holland Ave. Dallas, TX 75219

Bear Hary,

My writing is going more rapidaly than I'd hoped.

Because of my relative immobility plus the fact that my office file abinets are already overstuffed I've been using space in what used to be called a Desk Organizer for the manuscript. When I ran out of space there I started going over what is in it that I do not now need there. I then found these duplicate copies of records I have apparently made in connection with some planned writing that I not longer remember some time ago.

I send them in the wxxt event they may interest you. Bope all is going as wel, with you and Back as it can.

L'ove,
