

8/27/67

Dear Maggie,

In my current writing on the autopsy, to which for the first time I was able to return yesterday, I have come across something I am saying about the Presidential car. At this point I think I should include a reference to your book, at least by title, and possibly to the appropriate chapter.

I don't think you have ever told me its name.

If you agree, I would suggest that it be in the form of a general identification that will be accurate whenever it is published, for books do last and references are of later value, to which, if publication is arranged before I publish this one, I can add the publisher's name.

If you prefer otherwise, I'll forget it. However, I think you will have something of worth on that subject and I shall not now be able to go further with it.

I wish I knew more of Sylvia's book for the same purpose. I recall only what is in Hoff, and I am writing no further on those things.

Would it be of value in your present writing to know the Commission's file classification? I can provide it. It will take time. If you have no immediate need for it, when I finish with the copy I now have I'll send it to you then. Otherwise, if you have immediate need, meaning ~~xxxxxxx~~ before about three weeks from now, I'll stop and make a copy.

I now have an FBI statement that the Cap film shows the Pres head snapping to the left. I'll send you that then, too. And still another FBI statement that the Hughes film shows the car in front of the TSB. Ditto, same source.

Going to Boston Wednesday to do -not be on-a three-hour talk show. No present plans for being away thereafter for two weeks. Did a Barry Farber show with Bill Buckley's right-hand righter, or Kieran O'Dougherty 8/22/ Wish I could carry him with me for all shows! Best to you all,
