Dear Maggie,

In my current writing on the sutopsy, to which for the first time I was able to return yesterday, I have come accross something I am saying about the Presidential Car. At this point I think I should include a reference to your book, at least by title, and possibly to the appropriate chapter.

I don't think you have ever told me its name.

If you agree, I would suggest that it be in the form of a general identification that will be accurate whenever it is published, for books do last and references are of later value, to which, if publication is arranged before I publish this one, I can add the publisher's name.

If you prefer otherwise, I'll forget it. However, I think you will have something of worth on that subject and I shall not now be able to go further with it.

I wish I knew more of Sylvie's book for the same purpose. I recall only what is in Mofl, and I am writing no further on those things.

Would it be of value in your present writing to know the Commission's file classification? I can provide it. It will take time. If you have no immediate need for it, when I finish with the copy I now have I'll send it to you then. Otherwise, if you have ismediate need, meaning taxiountains before about three weeks from now, I'll stop and make a copy.

I now have an FBI statement that the Cap film shows the Fres head snapping to the left. I'll send you that then, too. and still snother FBI statement that the Hughes film shows the car in front of the TSED. Ditto, Same source.

Going to Boston Tednesday to do -riot be on-a three-hour talk show. No present plans for being away thereafter f or two weeks. Did a Barry Farber show with Bill Buckley's right-hand rightright or Kieren O'Dougherty 8/22/ Wish I could carry him with me for all shows: Best to you all.
