FD-302 (Rev. 3-3-59)

FEDERAL BUREAU OF INVESTIGATION

Date December 1, 1963

1

Detective R. D. LEWIS, polygraph operator, Dallas, Texas, Police Department, stated that he ran a polygraph of-BURY, WESLEY FRAZIER, and while he was running the polygraph, FRAZIER was shown what appeared to be a home made brown, heavy paper gun case. He stated that FRAZIER said that it was possible that this was the case, but he did not think that it resembled it. He stated that the crinkly brown paper sack that OSMALD had when he rode to work with him that merging was about two feet long. (LEWIS refers to the brown, heavy paper gun case. LEWIS refers to the paper in this manner because of the fact that the Dallas Police Department is of the opinion the brown, heavy paper was used by OSWALD to carry the rifle into the building where he was working. The paper referred to by LEWIS is not a gun case at all).

Detective LEWIS stated that if this was not identical with the sack that was turned over to the Eureau, it is possible that CSMALD may have thrown it away. The police have turned over everything that they have in the Crims Laboratory to SA DRAIN. This has been stated by Captain GEORGE BOUGHTY, Head of the Crime Laboratory, Lieutenant CARL DAY of the Crime Laboratory, and R. D. LEWIS, polygraph operator in the Crime Laboratory. That individuals state that as far as they know, the paper small of the type described by FRAZIER was not recovered by the Police Department. It is possible, but improbable, that it was recovered by the Eomicide Bureau. If so, they do not know anything about it in the Crime Laboratory of the Dallas Police Department.
