Dear Mr. Grafton,

I enclose the information on getting my books.

I am interested in what you say about your 1970 experiences at the National Naval Medical Center, Bethesda, when you appear to have been expressing doubts about the JFK assassination solution, that you were called onto the carpet and told to keep your mouth closed, that this was a "family" request, and that about a week later you were transferred to Quantico. I take it you were a Marine.

It was almost always claimed that whatever was not done at the autopsy was at the request of the family. I know of no evidence proving it and no reason to suspect it was true. I think it more likely that this was the excuse to cover up for what was not done that should have been done.

It interests me that seven years later this was still the attitude there. And while there appears to be nothing that can be done about it now, I'd appreciate all the details you can now remember, from what you were saying or asking to who called you on the carpet and anything else you were then told.

On the opinions you express about the assassination, they reflect the influence of books that are not factual, written by those who know nothing about the fact that has been established and make no effort to find out, so they report as fact what is only theory: they pretend is fact and people are misled as a result.

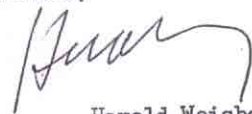

From what we know about the shooting and the impact of the shooting and the reports of missed shots it is not possible for any shot to have come from that manhole. A well-intended man started that fiction years ago but he imagined just about all he wrote.

If you have had access to a copy of the Zapruder film, that may well have been made from one that was doctored. But the original was not doctored. Some frames disappeared but the rest is pretty certainly the actual footage.

The Zapruder film actually demolishes the official story. So ~~what~~ why would anyone destroy or replace ~~what~~ it, as you say, to hide the real assassins?

The books of theory can be made quite attractive and interesting but all are faulted in different ways.

Best wishes,

Harold Weisberg

Dear Sir

I read in High TREASON 2 by Livingstone that I could obtain copies of Whitewash I, Whitewash II + Photographic Whitewash. Please send me information on how I can obtain these pieces of work. I'm a student of the Kennedy Assassination. I also believe that the Zapruder film is a fake + used to trick + hide the real assassins.

WAL
COPMAN

I was stationed at NMMC Bethesda in 1970-71. I was called "on the carpet" one day because I was asking too many questions about that night (Nov 22nd). I was told to shut-up + stop asking questions. They told me that what happened that night was + is none of my business. It was a family request to keep it quiet. And a week later I was transferred out of Bethesda to MCDAC Quantico Va. (Marine Corp Base)

I also never believed that JFK was never shot from the Grassy Knoll; as a side shot but rather a little further down at the Munroe core.

I'll be waiting to hear from you.

Sincerely:

JERRY TORAFON
