Dear Dick,

As you'll see from what I'll enclose after I read and correct it, I found what Lardner did unacceptable and bad and not in accord with our agreement and I've asked him to retrim most of what I let him have under that agreement.

If I had even suspected that he would do this I'd not have talked to him leave alone offer him the collaboration.

I have duplicates of all except some of the pictures.

Before I got his letter to Macmillan I wrote him at some length about what I believe should be included under what Garrison could and should have done as Stone also could and should have.

That made it a new and I think significant JFK assassination book.

Besides being a better and more topical Stone.Garrison/movie book.

I think, anyway.

I'd like to know if you agree and if you do ^{and} if you have any ideas.

Best to all, and thanks,

Hald
