

Hi:

Assassination story in current Post issue gave clue to June 8, 1963 issue.

The elderly magazine was feeble - stapled together - so had to literally get stories in pieces on smallostat equipment.

Story on garrison offers good angles on his "bulldog" tenacity.

In the Cuba article found the elusive angle of attack on hotel and Russian ships - Eureka - Apcelesior!

Could the Nestor Carbonell mentioned be related in any way to the Col. Arturo Carbonelli in Virginia?

Castro story in Police Gazette is sheer garbage. Richards, a U.P.D. man for South American papers, who lives at Columbine, gave me this and Cavalier piece on Ruby.

Ving

Also could the Virginia Col. be one Mrs. Rich saw get money from Ruby?
