

5/4/95

Dear Gerry,

Thanks for your 5/1 and its enclosures.

That QBO desk calendar adds just a little to what I'd already written about  
Mailer the machetero.

Please thank Hanh-rang.

10 copies of NA along with one of index just came. Index looks good but I've  
not read it or checked the book.

Hest

A handwritten signature in cursive script, appearing to read "Hest", written over the typed name "Hest".

Dear Harold,

5-1-95

Enclosed are a couple items from this past Sunday's (April 30, 1995) N.Y. Times. It appears Mailer is pretty much getting the same uncritical attention Posner got. No surprise from the Times. The article on June Oswald is a bit more interesting. And, finally, Hank-Young called my attention to a brief write-up of a big skeleton in Mailer's closet. It is from the Quality Paperback Bookclub Desk Calendar for 1995.

Take care, and regards to Lillian.

Best,  
Geny
