In my haste to get back to my Stormin' Horman last evening I do not emember whother I enclosed the enclosed add to Waketh or not and "realized after I was abed that I is discreption to respond to your question of 6/23 on which would be the best source for institutional failure. I suppose on book publishing, WI and on JAMA MA! but perhaps because it hold so such new medical-investigation data, new to the media at least, perhaps Mi. Not inout the rest of your paper I feel unable to really respond. Well, in a sense because your presentation will be in August, given the record, that that is entirely ignored, prhaps the locumen ation of the beginning, of that conspicey not to investigate the crime, would be more dramatical can give you copies of the documents if you want them. They will still be new if there is no press conference or if it does nothing.

I'm glad you think of MA! as you do. Jerry has offered a sulliar approprisal. So has Dal LeGuirk.

Day before yesterday we were visited by the Pittsburch Post Gazette book editor. He'd phoned first. He came to do a story on me. I tried to switch him to MA! but did not succeed. Farhaps he'll also do a refliew. This and the coming of his photog. he was en route to a convention two Mays earlier here major time-takers but after I finish this I'dl get mack to beil r. I'm near the end of what I'll say about the book. But based on what he said that I've used I've a peg to hang Senator Russell Discents on and all along I planned to add what were removed from Case Open, on the evidence. I think I've written more than 100,000 Mords. From what a student retyping what I wrote about Heuman on her computer told me this hailer should run perhaps 600 pages retyped. How all ish I have more about publishing and who hates who and who is not afraid of the Neuman/Random H use empire! This could be a book they'd love.

seeing both of you in August.

Best,

Hardp

Enclosed you will find a review of a new book on the RFK assassination by that noted authority, Gerald Posner. You may have already seen it. I thought about writing the NITimes Bookreview section and include a copy of the letter I sent to Posner, to which there has been no response, of course. Perhaps I will before too long, but currently I am enthralled with Never Again! and working on that paper Dennis and I will be presenting in August. I hope Lesar, et. al. will be able to pull off that press conference. But given the abdication of the press and media, which is so amply documented in Never Again!, I guess it might just be wishful thinking to hope that much will come from it. My limited experience with the press in this area is that not only do reporters lack knowledge of the context but even when you make a sincere effort to provide some context and documents they still don't get it or are just

interested in whatever sensational value they can superficially see in what you tell them.

One question I have about the paper we are working on. Do you think it would be best to use original sources such as Whitewash and Post Nortem to document institutional failures or draw more from Never Again! to give it more attention? I also thought about including an appendix of selected documents. It is going slowly so far because I have also been involved in a couple home improvement projects.

Hope you and Lillian are well. I am looking forward to seeing you both in August. Take care.

Best,
