

SW 11/17

Dear Harold,

11/14/99

Thanks so much for reading and commenting on my essay so quickly. I've sent several other copies out but haven't heard from anyone else. Your comments are well-taken. Sometimes the most obvious points get overlooked -- which I believe I did in not making the point that Time never spoke of the assassination as even a defacto coup de etat. I believe that could be an appropriate point to bring out in the conclusion. Thanks also for sending a copy of that Chaney document. This is not the first time I've gotten him mixed up with Jackson. I also noticed your frequent insertions of "alleged" which are appropriate. My only excuse for not including that important qualification is laziness; also it seems to get so repetitious after a while that it may lose some of its meaning.

I hope to be able to get back to this essay and finish the footnotes and revise it after this

busier than usual semester is over with.

It looks as if I will only have a handful of students in my Interim project on the evidentiary hearing for Ray. I will have the bookstore send any book requests for Frame-up to the Hood Bookstore.

Take care and give our warm regards to Lil. Hope you have been able to enjoy somewhat this beautiful fall weather.

Best,
