

Dear both,

8/30/98

It was thoughtful and it is useful and what you had no way of knowing, when it came was timely. We could both use the lift it gave us.

I know about rice and it happens I've always liked it. Info from the nephrologist. Rice is now my potatoes, a 766-766,

It was a difficult week for both of us. Lil's legs are giving her more trouble from an undiagnosed problem and moving around is more difficult for her. Suddenly I became much more tired, with no known medical cause. Cardiologist at Hopkins Tuesday was pleased. He is also more optimistic on the kidneys and the dialysis than the nephrologist predicted.

Right now we have a new problem, finding someone to apply the medication to my back every evening and to wash it about twice a week. The washing makes it itch more. Our neighbor who is a nurse, has been doing it but when school starts she will be looking for a parttime job. They are a wonderful family. Fearful falling.

I've returned to Wlay the corrected retyping of Whoring with History: How the Gerald Posners Protect the King Assassins. Dave has read the first 12 chapters and thinks well of it.

The new "investigation" announced by the DJ is the wrong one and assures more disenchantment. I wrote to Cong. John Lewis and Andy Young and got no response. As I did not from Reno. But I surely could load one up! With the most sensational information, all official.

They seem to want to stay out of it and not to say anything other than the King family did.

Dexter King did not answer me, nor did his mother answer Jerry.

Dave is doing a good manuscript on the Zapruder film. Just went over several chapters. Needs doing and is overdue.

Again thanks and our best,

Harold
