Dear Walter,

Please change your records, reprogram your mind or both. They renumbered the mail routes several years ago. We have not moved but we are on 12, not 8. We did get your note, despite the envelope. Does not happen often.

Your schedule on Tuesday is good for us if there are no interruptions here. I like the dictionary much and do not have to use a lens to use it. Each time I do use it I think of you, to. Both, that is, including the one who would not have gotten the address wrong!

You have a tight schedule but I hope it permits a phone call. I'd then arrange a walk for the time your radio interview with WTOP is to be aired. I listen to them while I walk.

Touching Lida story: she is coming here to do the mowing for me while I am not able to do it. The past few days I'm a little tired but I'm still walking 5-6 miles a day, sometimes seven. However, 10 minutes with the mower has been too much. I did not ask Lida, it is her idea.

I do this walking in the lane, not having been released for steep hills. I squeeze a ball with one hand and a transistor radio tuned to an all-news station ~~WOP~~ with the ~~other~~ other hand. Since mail time today I've been listening to tapes while I walk. Without your note I'd still have tapes to listen to Tuesday.

Hope all the promotional time does not stack your regular work for you.

If Lil were not down in the garden I'm sure she'd send her best to Agnes so I do for both of us.

Sorry you did not get here for a break and that there appears to be no prospect of my getting there soon.

best,
